### V-Safe Vaccine Symptom Monitoring

Individuals who have received the COVID-19 vaccine are encouraged to register for the tool called v-safe, offered by the U.S. Centers for Disease Control and Prevention (CDC). V-safe is a smartphone-based tool that uses text messaging and web surveys to provide personalized health check-ins after you receive a COVID-19 vaccination. Through v-safe, you can quickly tell CDC if you have any side effects after getting the COVID-19 vaccine. Depending on your answers, someone from CDC may call to check on you. V-safe will remind you to get your second COVID-19 vaccine dose if you need one. Sign up for v-safe with your smartphone's browser at <https://vsafe.cdc.gov>.
